☒ Software ☐ Printer ☐ Copier ☐ Scanner

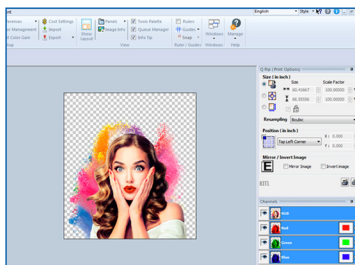

Brighter Colors, Less Ink

AnaJet®
A RICOH Company

High-performance DTG printing demands high-performance RIP software. Save money and enjoy ultra-optimized color profiles and advanced functionality with Kothari Print Pro created by industry leader, Kothari Info-Tech.

KOTHARI PRINT PRO

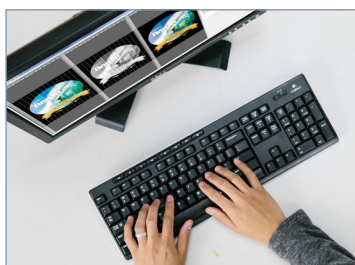

FEATURES

Bring Color to the Next Level

Achieve brilliant, accurate colors with Kothari Print Pro's expanded set of print profiles optimized for a wider range of garment

colors and types. The software provides fine detail and subtle shade gradations, resulting in prints that display rich, vibrant, more precise color.

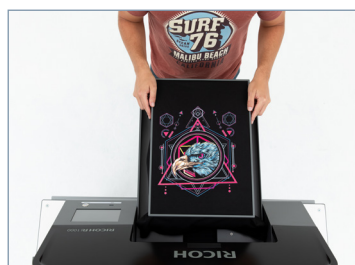

Save Money, Reduce Waste

Kothari Print Pro saves money by reducing ink usage on black garments by up to 44 percent when compared to AnaRIP software.*

Utilizing a patented algorithm based on the garment's color, the software minimizes waste by more accurately calculating the amount of ink needed to complete your print.

**Ink usage test performed on black t-shirts using a set of standard sample images printed in "White Highlight" mode with default settings.*

Robust Image Handling

Unlock the power of Kothari Print Pro software with advanced features. Directly manipulate RIP image colors, load and position multiple

images on the fly, and enjoy extensive control over your white underbase, choke, highlight, and more.

What's Included?

Kothari Print Pro comes with a Software Installation Flash Drive and a separate Software Protection USB Key required for use on your system. Limit one (1) software license per computer/printer.

KOTHARI PRINT PRO

SYSTEM REQUIREMENTS

Compatible File Formats	TIFF, PNG, JPG, PDF, PSD, AI, BMP
Required Operating System	Windows 7 (32-bit) or later
Minimum Processor and Memory	Pentium i5 2.3 GHz or faster, 4GB RAM
Computer Storage	High speed SATA interface. Size depending upon the TM usage requirement (Print Pro uses hard disk as a primary scratch space for storing image files). Recommended 100GB or more free hard disk space.
Minimum monitor resolution	SVGA 1360 x 768, 24-bit color or better
Maximum image size	4800 x 5880 @ 300 dpi
